

Kingsley

Providing industrial printing solutions for over 60 years.

KINGSLEY SUPPLIES INCLUDE

Hot Stamp and Thermal
Transfer ribbon, steel
type, engraved steel type
wheels, wire and sleeve
holding fixtures

VARIABLE INFORMATION

Kingsley printers provide the ability to print the following types of information as required:

- Incremental/Decremental numbering
- Bar Codes
- Lot Numbers
- Graphics
- Descriptions
- Country of Origin
- Source Codes

PACKAGING LINES

- Bagging
- Labeling
- Custom Lines

SUBSTRATES

- Plastic films & Bags
- Labels
- Blister Cards
- Cartons

MARKETS

- Medical Devices
- Personal Care
- Electrical Parts
- Components
- And More

KIP-20

Intermittent Hot Stamp Wire Printers

Prints on insulated wire and cable (including Teflon, Tefzel, etc.) Prints on command from wire processor, cutter, stripper, or terminator

Model KIP-FL prints on insulated wire and cable with connectors or terminated ends.

Print wire sizes from .038" to .750" OD.

MODPRINT 2020A

Off-line Wire Marking System

An integrated high voltage spark tester halts operations when an insulation fault is detected. Meets the ASTM standard allowing for the continued use of hot stamp wire marking with a spark tester on Park 125 aircraft. Mark, measure, and cut wire ranging in sizes from .035"OD to .250"OD
